

AND THE BLUE RIBBON GOES TO TOYOTA PARK FOR BEING THE BEST VENUE TO SEE JIMMY BUFFETT

This is the second year Jimmy has performed at Toyota Park and hands down, this is the best venue to see and hear the concert. Once again, we have had nothing but rave review's about the entire day.

"I thought everything about it was great. Our tailgate area with the private port a potties and all those picnic tables really rocked. We will definitely sign on for next year. Dee "

"I thought the tailgate was great, the venue clean, the venue staff attentive and the sound was very good I think they should raise the stage to make it more visible." Cheryl

"I can only comment on hearing the concert from the parking lot and it was excellent. Lots of songs everyone should know by heart right off the bat and Jimmy brought out "Gypsies in the Palace", a song I first heard at my very first concert back in 1986. But the heat had tempered, there was a light breeze and the acoustics were perfect The tailgating was a tremendous good time- whoever brought the big ole bowl of fruit salad - yum and thank you for allowing me to temporarily believe I was eating healthy! There was so much good stuff that I did a lot of nibbling all day long. It was a great sunny, warm day spent with good friends, good food and good cheer." Julie

"I chuckled at the "PARKING IS WHAT IT IS! So please no comments on that..." Leave it to me to comment on it anyhow!!!!!! Aside from our quick discussion about the one particular Parking Nazi; I thought the parking (even 'shrinkwrap' spots) worked pretty well. Please tell Toyota Park that the Red Shirted Security Guys were OUTSTANDING (I know there were gals there too, but I only interacted with the male form!)." Keith

"The way Toyota Park personnel take care of their property and guests was outstanding. Garbage was constantly picked up, trash cans never overflowed, and having the port a pots cleaned half way thru the day was truly a task that was welcomed. And then after the show was over there were representatives driving around with battery charges for those that had too much fun to remember to turn their car auxiliary off. Toyota Park thought of it all. " Rafone

"Buffett was a blast! Jimmy certainly did not dissapoint. He had us on our feet the whole time and even surprised us all with Joe Perry from Aerosmith joining him on stage for a song. He only gets better with age!" Katie

Miscellaneous comments: *"Great idea having Ice sold in the parking lot". "Having a larger open area for the Chicago Club was awesome", "Security personnel were great to work with". "Truly a positive experience, best venue to see any con*
